- Never move while in use.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, remove plug from wall outlet.
- Do not use appliance for other than intended use.
- Extension cords may be used if care is exercised in their use.
- If an extension cord is used: 1) The marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance; and 2) The cord should be arranged so that it will not drape over a counter top or tabletop where it can be pulled by children or tripped over unintentionally.
- Outdoor extension cords must be used with outdoor use products and are marked with suffix "W" and with the statement "Suitable for Use with Outdoor Appliances."

INSTRUCTIONS AND WARNINGS

- Approximate assembly time: 10 minutes
- Actual product may differ from picture shown.
- Ensure grill is cold to the touch before installing the rotisserie.
- Do NOT operate the rotisserie at temperatures that exceed 500°F (260°C)
- Remove the rotisserie if operating above 500°F (260°C)
- Food weight should not exceed 16 lbs.
- Always remove the rotisserie when not in use.
- This rotisserie is designed for Classic Joe Series Grills.
- Food should be setup on the rod outside the grill, then put into the grill with gloves.
- Center the meat on the rod and use the two included forks to hold the meat securely. The more centered and balanced the meat, with the least amount of movement, is the best configuration.
- Place the rod onto rotisserie base with the pointy side of the rod on the motor. Turn on the rotisserie motor before starting the fire. This allows any adjustments to the meat to be made before everything gets hot. Reconfigure either the meat on the rod itself or the forks holding the meat securely in place if necessary before starting the fire. Once the food is balanced and turning well, you are ready to start your charcoal.
- It is recommended to check the food on the rotisserie rod after the first 15-20 minutes of cooking as the meat could shift on the rod and need to be re-adjusted. Always use extreme caution when working around the hot internal parts of the grill. Use long heat resistant gloves and protective clothing at all times.
- Upon completion of cooking, do not attempt to clean any part of the rotisserie kit while they are hot. Wait for your Kamado and rotisserie to cool completely.
